

Western University  
**MATLAB 964054 Student License Installation**  
Windows | Macintosh | Linux

---

Western's campus license agreement with MathWorks allows students to install MATLAB on student-owned hardware to meet course requirements and perform academic research at degree-granting institutions only. It is not available for government, commercial, or other organizational use.

**2016-2017 Activation Key:**  
**75326-49488-26573-18439-47936**

*This code is not for distribution.*

**Three installation steps are required:**

- (1) Create a MathWorks account
- (2) Download the MATLAB installer
- (3) Install MATLAB, Simulink and toolboxes

**Stop!** Review the system requirements PDF before starting the installation process.

**STEP 1: CREATE A MATHWORKS ACCOUNT**

- Go to the MathWorks website -> [mathworks.com/licensecenter](https://mathworks.com/licensecenter)
- Create a new 'Student' account using only your "@uwo.ca" email address
  - If you already have a MathWorks '@uwo.ca' account, log in and skip to Step 2
  - If you already have a student account with MathWorks that uses a non-uwo email, log in and edit your account's email address to the Western '@uwo.ca' email address
- Close this web page then check your email for a verification email from MathWorks

**STEP 2: DOWNLOAD MATLAB INSTALLER**

- Login to the MathWorks webpage -> [mathworks.com/licensecenter](https://mathworks.com/licensecenter)
- Select "Associate License"
- "Activation Key or License Number" is displayed -> enter the Activation key from above
- Click on 'Associate License' then 'Download Your Products Now'
- Select 'Download' (Note: any version can be selected)
- Select your computer platform from the list (Win, Mac, etc.)
- Continue through the steps to download the installer (i.e. `matlab_R2016b_win64`)

**STEP 3: INSTALL MATLAB PRODUCTS AND TOOLBOXES**

- Run the installer to start the installation process
- Select the installation method -> Log in with MathWorks Account
- Select the site license number that is listed
- Select products to install (all available products are selected by default)
- Activate MATLAB (checked via MathWorks) then complete the remaining steps

***Your MATLAB software is now installed and is ready to use.***
