

Western University
MATLAB 964054 Student License Renewal
Windows | Macintosh | Linux

Student End User License Agreement (EULA)

Western's campus license agreement with MathWorks allows students to install MATLAB on student-owned equipment to meet course requirements and perform academic research at degree-granting institutions only. It is not available for government, commercial, or other organizational use.

Is MATLAB telling you it is about to expire (or has expired)?

You do not have to reinstall MATLAB to renew its license.

```
-----  
Your MATLAB license will expire in 49 days.  
Please contact your system administrator or  
MathWorks to renew this license.  
-----
```

Renewing MATLAB using the 2016-17 Activation Key

2016-17 MATLAB activation key (exp. July 1, 2017)
75326-49488-26573-18439-47936

MATLAB must be closed before completing the renewal process.
An internet connection is also required.

Launch the Activation application:

Windows

Activate MATLAB R20XXx from its folder (Windows Start -> All Programs -> MATLAB)

Mac/Linux/Solaris

Activate MATLAB using any one of these processes.

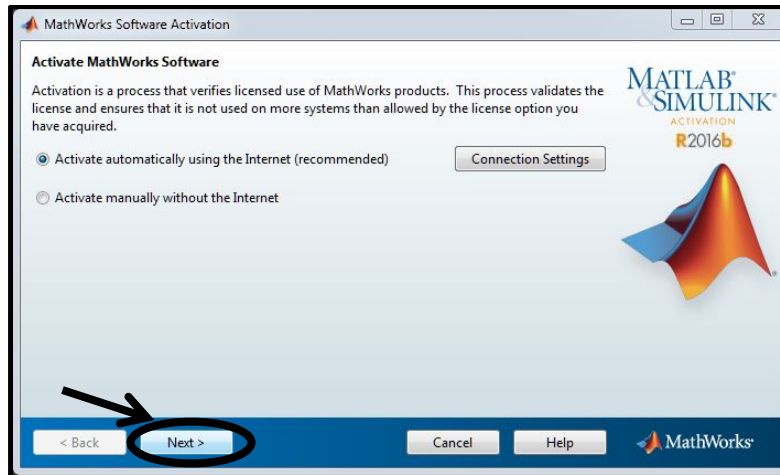

- **Linux and Mac OS X** - Execute the activate_matlab.sh script in the matlabroot/bin folder
- **Mac OS X** - Double-click the activation application icon in the MATLAB application package. To view the contents of the MATLAB application package, right-click (or Ctrl+click) the package and select Show Package Contents.

Western University

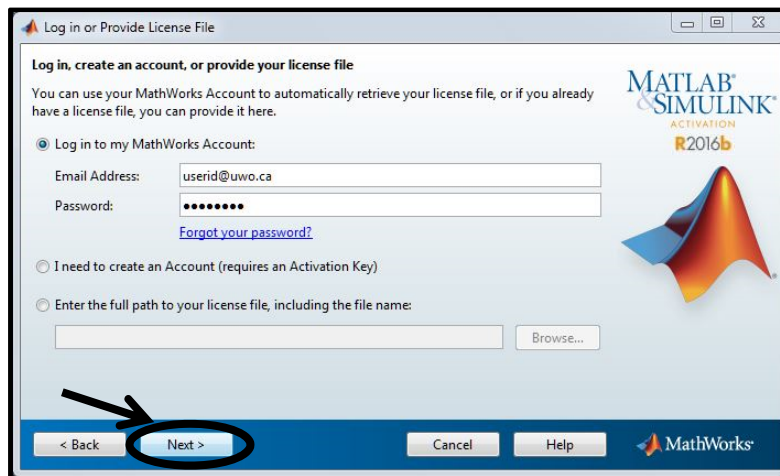

MATLAB 964054 Student License Renewal

Windows | Macintosh | Linux

Select 'Activate automatically using the internet (recommended)'

Login to your MathWorks account:

Select "Associate License" then enter Western's activation key on the first page of this document.

You have now associated your software for the 2016-17 licensing year. Finish the process then close out of your MathWorks account.

Launch MATLAB

The expiry warning message will no longer appear.

This activation reassignment does not upgrade the version of your software; it only resets the MATLAB to the new expiry date (July 1, 2017)

If you also want to upgrade to a newer version of MATLAB, refer to the upgrade PDF for more details.
